

Special Invitation to Women IVP Members!

If you are an IVP member and more importantly if you are a woman, then here is an exciting new initiative. The Women's Working Group (WWG) under the SCI umbrella is an independent working group that was revived at the International Committee Meeting 2006 (ICM) in Nepal in December 2006.

Women's Working Groups have now been formed in many countries in Asia including Nepal , India , Sri Lanka , Malaysia and Bangladesh . The WWG is a group of enthusiastic women who work together to better the community around them by addressing issues of particular relevance to women through training programs, seminars and workshops.

The need of each country differs greatly and therefore, the programs that each WWG carries out is varied as well. The WWG in Nepal is carrying out research on the condition of women throughout the country. The WWG in India on the other hand, is carrying out programs such as health camps and awareness raising.

In Australia , we are in the process of forming a virtual group of dedicated women in order to ascertain the needs of women and to work towards fulfilling them. If you are interested in joining this group, then please

contact Miss Neelam Pradhananga at neelam_pradhananga@yahoo.com or mobile 0413091378.

(PS. Neelam is a new member of IVP Australia. She has been active in SCI Nepal and has moved here for her studies).
