Workshop 1 - Challenges of each NGO:

We will first share and confirm the core values, nature and quality standard of IVS and LMTV by utilizing “What is our IVS?” paper (finalized by the 6 networks of IVS NGOs in 2019 Feb.) and some other documents such as LMTV Handbook, Quality Charter and Practical Procedure.

Then, each NGO will present the highlights of 2019 evaluation and 2020 plan of their LMTV projects and exchange, especially focusing on the internal/ external challenges. We will try to share such info. beforehand, so can start from Q&A and discussions during the meeting.

Project visit/ Work - Visiting YCK:

We will visit Yayasan Chow Kit (YCK) which cares disadvantaged children including refugees. MOVE organized 4 short term workcamps and hosted 1 Mid Term Volunteer here in 2019. We will see the home and the school, talk with the staff and do some exchange activities with the children!

* Yayasan Chow Kit (YCK) is a non-profit organization that caters to the needs of children in and around Chow Kit. They run two drop-in centers in Chow Kit and one safe home for children who are in need of temporary guardianship. YCK operate in partnership with Ministry of Women and Child Welfare. YCK developed out of Nur Salam and was incorporated in 2011.

Bilateral talk:

We will have 20-30 min. of bilateral talk to evaluate and plan the cooperation. Indeed, this can be voluntarily done at any free time once both organizations agree, but we still specify the time frame here to ease the arrangement though this is still optional to join.

Training 1 – Guidance to the volunteers from A to Z:

We will combine A. Role Play, B. Sharing the practice of each NGO and C. Checking minimum standard for the whole process of 1. Pre-Departure Training, 2. On-Arrival Training, 3. Monitoring and Mid. Evaluation, 4. Pre-Departure Evaluation and 5. After-Returning back Evaluation.

Partnership between Sending/ Hosting NGOs and Asia/ Europe may be also focused.

Training 2 – Promotion to get more numbers of qualified volunteers:

Same combination of A., B. and C. as Training 1 and we will focus on how to increase the number of volunteers with keeping good quality of motivation. Here, we could for example share how to use movies and SNS, develop partnership with various stakeholders, etc.

Thus, if the participants want, we can also deal with the fund raising of the projects such as grant applications, incoming fee, donation and so on.

Open event – Global LMTV Fiesta:

We are planning to organize it with inviting Malaysian young people and various stakeholders to promote their participation and cooperation. We may have a presentation contest, exhibition booths, panel discussion and cultural fun programs.

GLOBAL LMTV MEETING

“I wanted to kill somebody.” A boy has confessed to us in the night of LMTV Evaluation Seminar. It was a rainy day in 2003 when a mother and his son suddenly visited our office. “He’s always staying in his room with playing with internet and computer games”. It’s been a serious social issue in Japan for 20 years that a million of youth are NEET (Not in Education, Employment nor Training), some of who are like him by different reasons such as family relationship, school bullying, laid off, etc. “I really worry his future. Can he join your project?” “But mother, is he himself really motivated to join?”, our staff asked. “Please let me try!” a boy powerfully said that was surprising, that’s why we asked him about this in the Seminar after he’s come back from a project in Thailand for 3 months.

“I was totally isolated and hated the world. But I don’t want to be arrested and the only legal way I could find from internet is to join the foreign soldiers’ army in France, that requires me to speak at least good English. So, I’ve decided to join your project to improve my English”. But he has dramatically been changed through the days in Thailand. “Local people were so kind to me. I’ve got a lot of precious treasurers.” In a year later, he became a very nice leader of our Mid Term workcamp in Japan and his mother kept sending 50 melons to our office every year.

This is one example of impact by LMTV (Long and Mid Term Voluntary service) and more and more IVS NGOs started LMTV projects and exchange since the beginning of this century. There was a lot of potential to share practice and making common working ways to improve the qualities, to developing the projects to maximize the positive and minimize the negative impact and to strengthen partnership among IVS NGOs and with other stakeholders.

However, there were very rare opportunities for LMTV staff to meet together since short term workcamps were the main activities for many NGOs. That’s why I and NVDA organized an Asian LMTV Seminar in Tokyo, 2004 hosted by NICE and sponsored by the Japan Foundation. 15 staff from

10 countries gathered and created a LMTV Handbook. “It was such a big help for me and IIRC to have better program of LMTV in Indonesia”, said by Puji, the Secretary (later, President in 2008-10) of NVDA.

We’ve developed this practice into the Asia Europe Training for Trainers (TfT) on LMTV in Tokyo again in 2009 by NVDA, Asia Europe Foundation and NICE in cooperation with CCIVS and ALLIANCE. 29 LMTV activists from 20 countries joined. Then, some TfT participants and I initiated to realize the 1st GLMTV in Germany, 2010 organized by CCIVS, NVDA and ALLIANCE right before the Technical Meeting. It was an effective way to gather many people. 52 from 24 countries joined. But we felt, “It may be better to have it separately with a less number, but more motivated people.” So, the 2nd GLMTV was held in Vietnam, 2011 and it’s been organized every year in Asia and Europe by turns with around 20-25 participants from 10 countries till now. SCI joined to co-organize it with 3 other networks since 2013.

We usually have a meeting in the project place of LMTV with some voluntary work in the beautiful nature and simple living conditions. Making a snow house in Slovakia, 2013 was a dreaming time especially for those who’d never touched snow! Coconut break in the organic farm of Thailand, 2014 was another paradise for those from north. The meetings became more active and productive after such solidarity refreshment.

We also try to have networking meetings with other stakeholders and/ or open events to promote LMTV to the public. The Ministry President of the Flemish region was very friendly even to me with samurai karate costume in Belgium, 2015. Asian Volunteering Summit focusing on SDGs was a meaningful opportunity to exchange with over 100 NGO leaders right before the GLMTV in the Philippines, 2017.

GLMTV and LMTV projects/ exchange have a lot of potential to develop more a colorful and healthy world, so let’s grow them together!
